# **We empower potential.**

An apprenticeship or traineeship (apprenticeship) involves learning a trade from your employer, combining paid, on-the-job training with formal education from a Registered Training Organisation (RTO).

An apprenticeship is an excellent way to achieve a qualification, such as a Certificate II, Certificate III, or even a Diploma, while gaining hands-on experience and earning money.

With over 500 different types of jobs to choose from, including business and administration, farming, building and construction, hospitality, conservation and land management, mining, community services, manufacturing, automotive, and many more, there's sure to be one that suits you!

ITEC Employment's Apprenticeship Consultants and First Nations Mentors will help you find the right apprenticeship and support you throughout your journey to help you achieve your goals.
